DETAILED ACTION

1. This action is responsive to the Request for Continued Examination filed on 7/06/05. No claims were added, amended, or canceled. Claims 1-24 are pending.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 8/29/05 and 7/06/05 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: Independent claims 1, 14, 22, and 23 are an apparatus, method and a computer program product for sending a message to a wireless device over a wireless network wherein the message includes an expiration instruction. If, at the gateway, the message cannot be delivered within the allotted time, the message is deleted. If the message has been delivered, the expiration instruction will be lapsed. The claim limitation of particular interest is "...if the message has not been delivered to the wireless device: the gateway lapsing the expiration instruction..." Deleting a message when the expiration instruction has expired would allow for efficient storage management and allow the transmitter of the message to take appropriate action. The invention in view of the aforementioned limitation overcomes the limitations posed by the prior art of record.
